

*UDO Virtual Conversation 3 – Tree Protection Article  
December 9, 2021 – 6:00 p.m.*

<b>Question as Submitted in Zoom Chat</b>	<b>Staff Answer</b>
Hi- Will the tree requirement have any specs for the size of the trees being preserved?	Answered verbally at [26:28]
With the Mitigation Fee, would one have to get permission to remove the tree if its dead/diseased and this would apply to every land owner? How would City monitor/staff this?	Answered verbally at [29:36]
How will the City play catch up to developments that won't be grandfathered into the new mitigation requirements. An example is Arrowood Rd near the 485 and across from Top Golf. Can't believe the impact of loss.	Answered verbally at [35:14]
What's the current policy regarding large heritage trees causing buckling in sidewalks in close-in and established communities? How will that change once UDO is adopted? Which one will be sacrificed--the large heritage tree or the sidewalk?	Answered verbally at [41:14]
Is there any particular concern with forest loss around the Mountain Island Lake area?	Answered verbally at [44:20]
Can you explain again how you arrived at the \$1,000 mitigation fee?	Answered verbally at [45:59]
If 4 percent of the tree canopy has been lost in 6 years, what's your projections on slowing down the tree loss?	Answered verbally at [50:38]
