

*UDO Virtual Conversation 9 – Required New Streets/Improvements and Standards for Them
January 11, 2022 – 6:00 p.m.*

Question as Submitted in Zoom Chat	Staff Answer
I've read that the state legislature wants to implement a ban on local stormwater runoff regulations if they exceed state and/or federal standards. Has this happened? This could mean a degraded water quality. What guidance did you use for your stormwater regulations? Can the state step in and undo your plans?	Answered verbally at [48:49]
Are prior meetings like this one recorded for us to see?	Yes, they are. Please view here: https://charlotteudo.org/udo-virtual-conversation-series/
Will the recording link be sent to the meeting recipients so that we may share this info?	The meeting recording will be posted on our website. All of our recordings thus far can be found at https://charlotteudo.org/udo-virtual-conversation-series/
